Plan an inclusive learning session

Teaching

TEACHING ONE-PAGE PRACTICAL GUIDE

WHAT IS THIS FOR?

Use a quick planning routine to make live teaching clearer, safer and easier to participate in.

WHY DOES IT MATTER?

Use a quick planning routine to make live teaching clearer, safer and easier to participate in.

WHAT DOES THIS LOOK LIKE?

The session has clear goals, a predictable structure, accessible materials and more than one way to engage.

WHAT CAN I DO?

- State what students should be able to do by the end of the session.
- Plan more than one way for students to engage with key ideas.
- Build thinking and processing time into the session.
- Make participation expectations clear and avoid unnecessary public risk.

EXAMPLE IN PRACTICE

A tutorial alternates short explanations with individual thinking time, small-group work and optional whole-room contribution.

STARTING POINT TO ADAPT

For the next teaching period, our team will: state what students should be able to do by the end of the session; plan more than one way for students to engage with key ideas. We will review student feedback and adjust if needed.
